INTERNSHIP

front-end developer

- Assisted in the development and maintenance of the company's website using HTML, CSS, and JavaScript.
- Collaborated with the development team to implement new features and functionality, ensuring adherence to design guidelines and best practices.
- Conducted testing and debugging to identify and resolve issues, ensuring smooth functionality and optimal user experience.

PROFILE

I am a passionate full stack web developer having expertise of 1+ years. I work closely with my clients in developing strong brand identities that define and exhibit values, and also professional visual entities to define your tone. I am a strong team player and also a good problem solver. I possess a solid understanding of web technologies and a passion for creating user-friendly and visually appealing interfaces. I thrive in fast-paced environments and have a proven track record of delivering projects on time and exceeding client expectations.

EDUCATION

BACHELOR OF COMMERCE

DDU UNIVERSITY, GORAKHPUR

As a BCom graduate who transitioned into web development, I bring a unique blend of business acumen and technical expertise to the field. With a solid foundation in finance and commerce, I possess a strong analytical mindset and a keen eye for detail. My passion for coding and web development led me to acquire proficiency in HTML, CSS, JavaScript, and various frameworks. I excel at translating business requirements into intuitive and user-friendly web experiences. With my strong problem-solving skills, collaborative nature, and a constant drive to learn, I am well-positioned to contribute to the ever-evolving world of web development.

COURSE

FULL STACK WEB DEVELOPMENT

As a BCom graduate, I made a deliberate decision to pivot my career path and explore the exciting world of web development. Recognizing the growing demand for digital expertise, I proactively pursued an extra course in web development during my college years to acquire the necessary skills for this transition.

- Learn the fundamental structure and syntax of HTML, including tags, elements, and attributes used to create the content and structure of web pages.
- Understand how to use CSS to style and format web pages, including techniques for layout, typography, colors, and responsive design.
- Explore the basics of JavaScript programming language, including variables, data types, control structures, functions, and object-oriented programming concepts.

EXPERIENCE

front-end developer

As a dedicated web developer with 1 year of professional experience, I have honed my skills in creating dynamic and user-friendly websites. I possess a strong technical foundation and a passion for staying up-to-date with the latest industry trends and technologies. In my role as a web developer, I have successfully contributed to the design, development, and maintenance of websites, ensuring seamless user experiences and optimal performance.
